I will work on gathering these to send to you by the end of today. Just as an FYI they are just internal reports we use.

I did have a question if WV DEP had results from the initial river samples that were collected?

Thanks,

Melissa

Melissa

Could you send me the hotsite reports that we haven't gotten. What we have are the 13, 16, 17, 29, and 30.

If it's too much trouble that's ok. Just trying to get reports from each group organized.

Thanks

Cindy
